Colonial Nursery is a Grower of Fine Annuals and Perennials, while also sourcing and supplying the best shrubs, trees, mulch, and soils. This is all in addition to our full service Landscape Design and Construction Department.

We offer the lowest possible pricing while not sacrificing quality or service, and we offer the highest possible quality of plants and services. We employ professional horticulturists who thrive on helping our customers gain knowledge and build long lasting relationships through professional knowledge of all types of horticulture. While we are a young garden center compared to our peers, we have quickly positioned ourselves to be able to grow and make quick changes to meet the forever changing economic environments. We keep our eye on what's current while at the same time keeping another eye on the future growth of the company and changes in the world of horticulture around us. We employ today's best practices with computer controlled greenhouse environments for our growing crops and up to date POS Systems to keep track of inventory and customers. We cultivate relationships within our community groups, providing a venue for local events and charities, helping our employees reach their potentials and connecting with new suppliers to keep our product offerings fresh and exciting every year.

You will find us on the Web, Facebook, Twitter, and in our occasional emails you receive.

We also offer wholesale and retail of:

**Shrubbery • Trees • Evergreens
Mulch's • Topsoil • Compost
Garden Supplies**
